CV-08-S-C450-NE

DECLARATION OF NORMAN J. CHACHKIN

NORMAN J. CHACHKIN declares as follows under penalty of perjury:

1. I am an attorney at law, admitted to practice in the States of Arkansas and
New York, and the District of Columbia.

2. I have been admitted to practice *pro hac vice* in this District Court in a number of cases, including (among currently active cases) *Stout & United States v. Jefferson County Bd. of Educ.*, No. CV-65-IPJ-396-S and *Hereford v. Huntsville Bd. of Educ.*, No. CV-63-J-109-NE.

3. I became associated in the representation of plaintiffs in this matter at the request of James U. Blacksher. In that role, I reviewed the Defendants' Response Brief to Plaintiffs' Motion for Summary Judgment ("Response Brief"), Doc. 41, filed August 21, 2008, and accompanying documents, including the Affidavit of Mark E. Dixon, Doc. No. 41-3, and Exhibit "B" thereto, Doc. No. 41-5. Those particular documents are referenced and relevant to the discussion at pp. 9-10, ¶¶ 16-19, of the Response Brief. Those paragraphs are described as statements of undisputed fact relevant to the disposition of plaintiffs' Motion for Summary Judgment.

4. In plaintiffs' Reply to the Response Brief, plaintiffs disagree that the statements accurately set forth facts that are material to their summary judgment motion.

5. Paragraphs 16 and 17 of the Response Brief are based upon the amount of expenditures per pupil from local, state, and federal funding sources in the 2006-07 school year as reflected in Exhibit "B" to the Dixon Affidavit, Doc. No. 41-3.

Paragraph 16 asserts, based upon the Dixon Affidavit and exhibit, that “Lawrence County’s total PPE ranks in the top 40% of all school systems in Alabama,” and Paragraph 17 states, similarly, that based upon the Dixon Affidavit and exhibit, Sumter County’s total PPE ranks in the top 20% of all school systems in Alabama.”

6. These assertions form the basis for the defendants’ argument, at p. 30 of the Response Brief, that:

Furthermore, as shown by figures from the Alabama Department of Education, total per pupil expenditures on public school students in Lawrence County ranks in the top 40% of all systems statewide, and the Sumter County per pupil expenditures rank in the top 20% of all systems statewide. These figures are hardly indicative of any harm or disproportionate impact compared to other groups or school systems in Alabama.

7. The inclusion of federal funds in the “total per pupil expenditures” calculation, column in Exhibit “B” to the Dixon Affidavit, does not accurately portray the resources made available *from Alabama sources* pursuant to the provisions of the Alabama Constitution and statutes that are the subject of this litigation. I have prepared exhibits that demonstrate this.

8. In preparing these exhibits, I used the most recent data concerning both Average Daily Membership (enrollment) and expenditures by funding source for Alabama school systems that is publicly available on the website of the Alabama

State Department of Education, <http://www.alsde/edu>. These two kinds of data for the same school year are available only in the SDE Annual Reports, which can be accessed by the “Reports” link on the home page and the “SDE Annual Reports” link on the menu which appears. The most recent data is for the 2004-05 school year, as stated in the transmittal letter to the Governor from the State Superintendent of Education reprinted at p. 2 of the 2005 Annual Report on the website. This avoids any inaccuracies which would result from applying one year’s ADM for each system to a different year’s expenditures, which is the manner in which Exhibit “B” to the Dixon Affidavit was prepared.

9. To prepare the exhibits attached to this Declaration, I used the “Select” tool in Adobe Acrobat[®] to open the table appearing at pp. 26-29 of the 2005 SDE Annual Report (copy attached hereto as Exhibit “1”) as an Excel[®] spreadsheet. For the next exhibit (identified as Exhibit “2”), I sorted the data by the “All Funds PPE” column, and ranked the result from highest to lowest. Because data for the Trussville school district was incomplete, and because of the special nature of the Alabama School of Fine Arts, I excluded these entries from the rankings. There were 130 other school systems for which data were available. For the final exhibit (Exhibit “3”), I first used the spreadsheet program to add a column which totalled, for each system, the expenditures from local and state sources; I then re-sorted the

data based on this column and assigned rankings from highest to lowest, excluding federal funds. (Finally, I eliminated unnecessary columns and converted the spreadsheets to .pdf files to produce the attached Exhibits “2” and “3”.)

10. As reflected in Exhibit “2,” the Lawrence County School District ranks No. 65 of 130 districts in total funds expended per pupil in 2004-05, or precisely at the 50% level. As reflected in Exhibit “3,” the Lawrence County School District ranks No. 57 of 130 districts in total funds from state and local sources expended per pupil in 2004-05, still not within the top 40% of school systems in Alabama.

11. As reflected in Exhibit “2,” the Sumter County School District ranks No. 18 of 130 districts in total funds expended per pupil in 2004-05, which is within the top 20% of Alabama school systems on this measure of expenditures. However, as reflected in Exhibit “3,” the Sumter County School District ranks No. 66 of 130 districts in total funds from state and local sources expended per pupil in 2004-05.

12. I also prepared an Exhibit ranking the school systems by expenditures from local funds in 2004-05, attached as Exhibit “4.” As reflected in Exhibit “4,” the Lawrence County School District ranks No. 74 of 130 districts, and the Sumter County School District ranks No. 100 of 130 districts.

I declare under penalty of perjury under the laws of the United States of America that the foregoing is true and correct.

Executed on September 2, 2008.

Norman J. Chachkin
